

2-Day AI Sprint Workshop

From Idea to Working AI System in Just 2 Days

Overview

Stop endless pilots and POCs. Our intensive 2-Day AI Sprint takes your team from discovery to working prototype with enterprise-ready governance built in from day one.

Investment: €4,999 + VAT (up to 8 participants)

What You'll Walk Away With

Deliverable	Description
Prioritized Use Case List	Ranked by business value and technical feasibility, with ROI estimates for each opportunity
Working Prototype	A functional AI system demonstrating your highest-value use case, ready for stakeholder demos
Implementation Roadmap	Phased delivery plan with milestones, resource requirements, and timeline to production
Governance Framework	Compliance checklist tailored to your industry (GDPR, FDA/EMA, PSD2, etc.)

2-Day Agenda

Day 1: Discovery & Prioritization

Morning (9:00 AM - 12:30 PM)

- Process mapping workshop: Identify bottlenecks and pain points
- AI opportunity brainstorming: Generate 20-30 potential use cases
- Stakeholder interviews: Understand constraints and success criteria

Afternoon (1:30 PM - 5:00 PM)

- Feasibility assessment: Technical complexity vs. business value
- Prioritization matrix: Rank use cases by ROI and implementation effort
- Governance review: Identify compliance requirements (GDPR, industry-specific)
- Select top use case for Day 2 prototyping

Day 2: Build & Roadmap

Morning (9:00 AM - 12:30 PM)

- Rapid prototyping: Build working AI system for selected use case
- Tool selection: Choose appropriate AI models and platforms
- Data pipeline design: Map data sources and transformation logic

Afternoon (1:30 PM - 5:00 PM)

- Prototype demo: Test with real data and gather feedback
 - Implementation roadmap: Phased plan to production
 - Governance framework: Compliance checklist and risk mitigation
 - Next steps: Resource requirements, timeline, and success metrics
-

Who This Is For

- ✓ **Product & Innovation Teams** - You have AI ideas but need help prioritizing and validating them with working prototypes
 - ✓ **Regulated Industries** - You need AI that complies with GDPR, FDA/EMA, PSD2, or other regulatory frameworks
 - ✓ **Executives & Decision-Makers** - You want to see what's possible before committing to a full implementation project
-

Why TechEvolveAI?

No Endless Pilots - We build production-ready systems, not demos that never ship. Governance is built in from day one, not added later.

Cross-Industry Expertise - We've delivered in financial services (An Post, AIB), energy (SSE), and pharma (ICON PLC). We transfer methodology across domains.

Hands-On Building - This isn't a lecture. We work with your team, your data, and your processes to build something real you can demo immediately.

Proven Track Record - 4.5 years at An Post (extended 9 times), 50% query resolution at SSE, 30-70% efficiency gains at ICON. We deliver measurable results.
